Please join us for a morning focused on building awareness around mental illness, domestic violence, suicide, trauma, and addiction. We'll be looking at education, resources, conversation, and community around these important topics. We will be honored to have the keynote with Dr. Dan Gottlieb, and a panel of professionals on these topics.

These topics touch everyone's lives. Attendees will leave this event with an increased awareness of these issues and what resources and support are available. We intend this to be an uplifting gathering to help you and your loved ones find hope and refuge. Recommended for College age and up.
